CONTI+ Service APP

Professional on-site management
for faucets, showers and urinals -
wireless & intuitive

The CONTI+ Service APP enables advanced, wireless management of CONTI+ electronic fittings on site.

Used in conjunction with the CONTI+ BLE Converter, secure communication is established via Bluetooth® between the fitting and the control device (e.g. smartphone or tablet). Thanks to the user friendly and intuitive CONTI+ Service APP interface, fittings can be identified and selected for very straightforward management, programming and data readings. The app software guides users systematically and logically through all menu items and features so that they can program sanitary rinses, check and set water running times, optimise sensor ranges, save settings and usage data, and more – wirelessly, easily, intelligently and securely.

The CONTI+ Service APP offers double security: users not only need a password to log in, but can also be assigned specific permissions.

The CONTI+ Service APP is available in German and English manages all CONTI+ electronic faucets, showers and urinals from 2018 onwards.

INSTALLATION

The CONTI+ BLE Converter is installed between the electronics and the power supply for each fitting – simply and without any tools.

The CONTI+ BLE Converter functions as a Bluetooth® transmitter and receiver for a single fitting. It can remain permanently installed on the respective fitting or be used as a “mobile unit” to temporarily connect to another fitting.

FEATURES

Display and analysis for each fitting

- Battery status
- Hours of operation
- Number of times used
- Water consumption
- Number of sanitary rinses
- Max. water temperature (only in special cases)

Parameter settings for each fitting

- Water running time & run-on time
- Filling mode & cleaning stop
- Sanitary rinse mode & runtime
- Restart delay
- Sensor range levels
- Installation location information
- Demand-dependent sanitary rinse triggered at intervals
- Max. water running time (safety switch-off)
- Water consumption calculation information

Reliable & innovative

For over 45 years, the CONTI+ brand has been a byword for flexible and holistic shower room and washroom solutions for public, semi-public and commercial environments as well as the health sector.

Known for its innovative technology and high grade materials, the brand has gained a reputation for unflinching quality. With a wide-ranging product portfolio and many years of experience creating custom designs, CONTI+ is now widely recognised among design engineers and architects for its valuable contribution to their projects. Every last detail is contemplated when developing tailor-made products, resulting in smart, individual solutions to suit a plethora of applications and equipment. The choice of shower and washbasin fittings encompasses a variety of colours and finishes as well as options for surface or flush mounting. Naturally sustainability, hygiene and reliability are prime considerations in the development of all products.

Thanks to its dependable quality and innovative technology, CONTI+ has remained a trusted brand in Germany for over 45 years.
