

CONVARIIO

CONTI+ 

Premium CONTI+ shower panel in mineral composite material

CONVARIO

Maximum corrosion resistance
Antibacterial surface
Numerous design options
With and without glass shelf

VERSATILITY

CUSTOMISED DESIGN & HIGH-END TECHNOLOGY

The CONVARIO shower panel made of high quality mineral composite material – your key to numerous design options! Whether with RAL shades, an elegant marble look or striking visual accents, CONVARIO opens up completely new ways of bringing colour into modern shower room designs.

The shower panel offers state of the art technology in the form of a fully electronic water inlet. Sanitary rinses and separate cold and hot water rinses are no problem at all, ensuring maximum cleanliness and convenience.

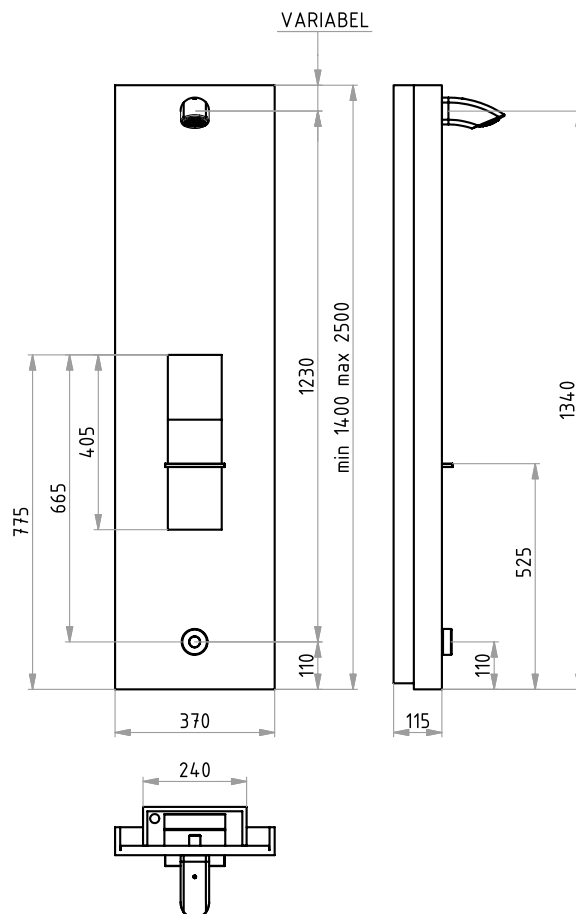

CONTI+ CONVARIO

High-end shower panel with fully electronic Thermostat-E

The CONTI+ CONVARIO shower panel is equipped with the intelligent CONPRIMUS water inlet and the fully electronically controlled Thermostat-E mixing valve, which has numerous hygiene and safety functions. Connected (wall mounting) to cold and hot water, its features can be set and programmed via the CONTI+ Service APP or CONTI+ CNX water management system.

Technical data

Connection voltage (mains, multiple installation):	24 V/DC
Connection voltage (CNX):	30 V/DC, also 24 V/DC
Operating pressure:	2.5–5.0 bar
Water temperature in standard mode (max.):	70 °C
Water temperature for thermal disinfection:	Briefly 80 °C for thermal disinfection
DN15 flow rate:	0.15 l/s (flow rate controller)
Flow rate for thermal disinfection DN15:	0.05 l/s
Water running time setting range:	3–180 s
Water running time factory setting:	30 s
Sanitary rinse setting range:	Disabled at the factory; can be set to 24, 48 or 72 h via piezo pushbutton, CNX or Service APP
Preset temperatures:	Standby temperature on activation of the piezo pushbutton 38 °C (adjustable from 100 % cold to max. 43 °C (temperature range) by turning the E-Control element). If the cold water pipe fails, the water flow is stopped when it reaches 48 °C (factory setting – adjustable via Service APP and CNX; observe maximum water temperature)
Memory temperature setting:	After the shower time has ended (or the shower has been stopped by pressing the piezo pushbutton again), the set temperature is saved for 30 s
Electronic IP protection:	IP 68
Dimensions:	370x115 mm (WxD) Height min. 1400 mm to max. 2500 mm (variable)

CONVARIO

CONTI+

- Pre-installed CONPRIMUS electronic high-end water inlet
- Thermostat-E mixer proportional valve at shower head height
- Electronic anti-scald protection
- E-Control electronic control unit, rotary knob/pushbutton for mixed water and start/stop function
- Visual temperature adjustment via LED display
- Non-linear temperature adjustment
- Electronically adjustable memory temperature
- Prefitted with plug-in connection for shower heads or handheld shower prefitted on delivery
- Electronic sanitary rinse
- Electronic cold water rinse (CNX)
- Electronic thermal disinfection (CNX)

Example: Granulated colour – Titan

MINERAL COMPOSITE MATERIAL

Innovative, sophisticated solutions

VARICOR® mineral composite material is characterised by excellent quality and diverse design possibilities. It also offers both antiviral and antibacterial properties as an option across the entire range! As a versatile material, it offers innovative solutions for creative minds and discerning processing companies.

The VARICOR® surface of the CONTI+ CONVARIO shower panel is made of aluminium hydroxide, a naturally occurring mineral filler, and bonded synthetic resins, giving it a high density and great resistance to heat, water and wear. For a 100% corrosion-resistant panel!

Individual designs and maximum planning freedom are ensured thanks to the wide range of colours and décors. The impressive durability, reparability and recyclability of this material make a sustainable contribution to the environment.

The standard range offers an extensive colour palette of plain, granular and watercolour décors as well as standard colours from well-known colour systems such as RAL® and NCS®.

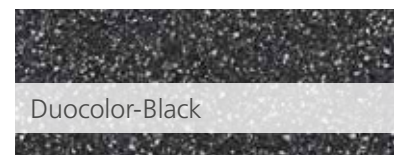

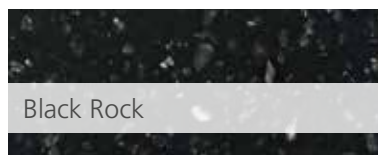

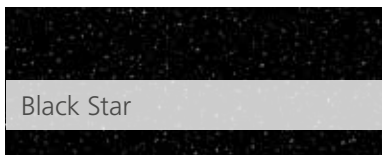

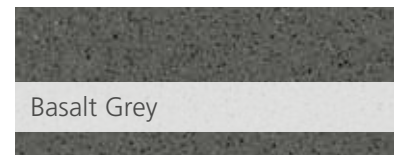

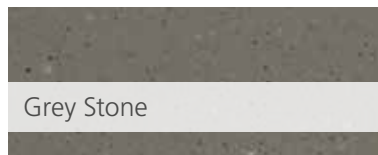

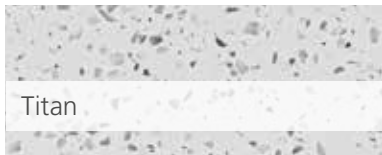

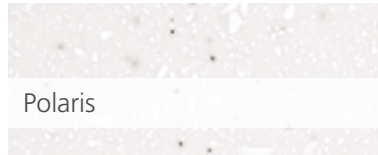

However, you can also choose any colour you want, plain or textured!

The CONTI+ CONVARIO shower panel sets new standards in wash-room hygiene with its water inlet, the fully electronic Thermostat-E mixer and the special material.

VARICOR® is also optionally available as a special “ABV” (antibacterial and antiviral) formula across all décors. For the highest hygiene standards without compromising on design or functionality.

GRANULATED COLOURS

TEXTURE WITH EFFECT

MARBLED COLOURS

Example: Marbled colours – Aquarell Dark

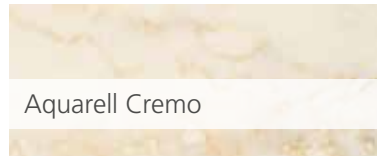

**

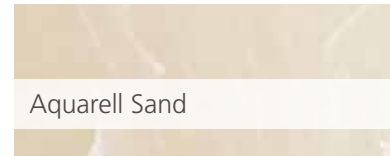

Aquarell White

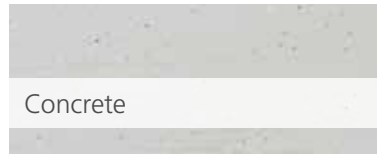

Aquarell Carrara

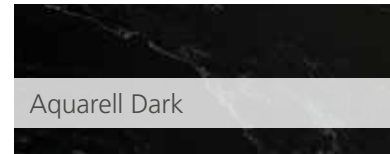

Aquarell Crema

Aquarell Sand

Concrete

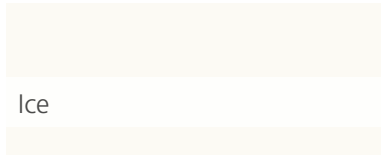

Aquarell Dark

MIRRORED NATURE

** Please note: The colours shown already give a very good impression of the required décor. However, there may be deviations from the original décor due to production methods. The marbled décors have naturally varied textures on account of the manufacturing process. Signs of use show more clearly on dark surfaces. Other colours and sample panels are available – please contact us. Colours shown may differ slightly from the original material.

CONVARIO

Design options

- CONVARIO for Service App or for CNX integration
- Shower panel in numerous design and colour options
- For fixed shower head or handheld shower kit
- With and without glass shelf
- Special sizes on request

Dependable & innovative

Hygienic, smart shower room and washroom concepts to improve quality of life have been the hallmark of the CONTI+ brand for 50 years.

With our innovative technologies, broad product portfolio and comprehensive range of services, we offer optimum solutions to meet all our customers' needs for new build and refurbishment projects. Impressive, flexible all-round expertise.

From advanced electronic and mechanical shower systems, washbasin faucets and urinal controls through to washbasins, as well as complete washroom equipment and water management systems, we take an integrated approach to all products and system solutions, with a strong focus on sustainability, hygiene and reliability. As a result, the CONTI+ brand is respected among design engineers and architects as a professional partner.
